

IT-Locks

Proximity Card Reader for PC Security and AX Access Control Enrolment Reader

IT-Locks Kit Contents

- 1 Desktop Reader
- Velcro for site mounting
- 1 Proximity Card
- CD with drivers and card management software

IT-Locks provides proximity card-based desktop security for PC's and laptops. Simply removing the card from the small desktop reader blocks the PC and monitor instantly from unauthorised users. Unlike Windows passwords, the proximity card cannot be copied or duplicated. IT-Locks leaves your data secure and can co-exist with Windows security or other third party software applications. Hard disk data remains unchanged.

IT-Locks Features

- Administrator passwords
- User accounts
- Wireless smart card technology
- Enrolment Reader
- USB connection
- Privacy button

IT-Locks instantly secures your keyboard, monitor and mouse and is ideal for open plan offices, training rooms, colleges and other areas where you do not want others to have access.

The privacy button in IT-Locks instantly blacks out the screen from prying eyes on confidential data and by pressing the button again reinstates the screen for immediate use. The compact desktop readers connects to the USB port on your PC, requiring no external power supply or other devices. Simply installing the easy to navigate software and IT-Locks is up and running.

IT-Locks instantly secures your PC when the proximity card is removed from the desktop reader.

Minimum PC Requirements

- PC with USB port
- 400 MHz processor
- 128MB RAM
- >100MB hard disk
